Computers

Using laptops or tablets to support your design and academic studies is a crucial part of your learning. While the College provides computers for teaching and access throughout the day, you will find it necessary at times to use a computer while working at home. The computer should have the following specification:

Intel Core i5 processor

8GB RAM

500GB hard drive

NVIDIA or AMD Radeon graphics card with 2GB of dedicated RAM

The College provides students access to a large range of software both on college computers and with licenses for the students' personal computers on a project-by-project basis. Students should however subscribe to Adobe Premiere Suite as all students will use the software provided via the Adobe Creative Cloud.

The Adobe Creative Cloud is an essential element of your design education
